

The Federal Communications Commission

Dear The Federal Communications Commission,

I'm a senior citizen on a fixed income and cannot afford to pay more for my phone service! I understand there is a proposal to change how contributions are made to the Universal Service Fund. I am concerned that this could make my current service unaffordable.

I make almost no long distance calls but, would pay the same as people or businesses that make many calls. This is unfair!

I use my wireless phone for safety and security. I don't want to lose these benefits so that big businesses can pay less than their fair share. Please reject the proposal to move the USF collection system to a flat-fee.

Sincerely,

Judith Mohn
